

How to download audios to your Ipad

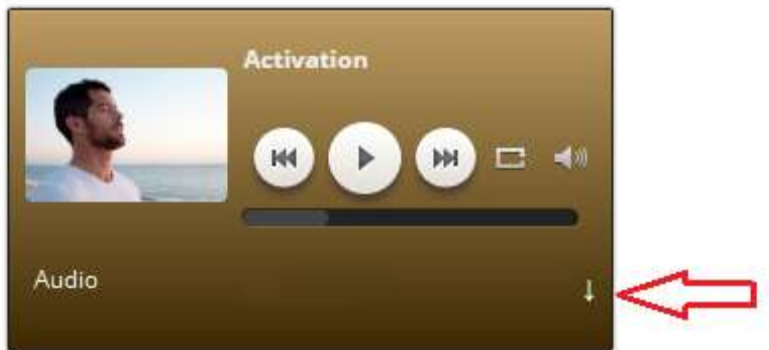

It is strongly suggested to download audios on Itunes (on your PC) and then synchronize it with your Ipad.

Otherwise, please follow these steps:

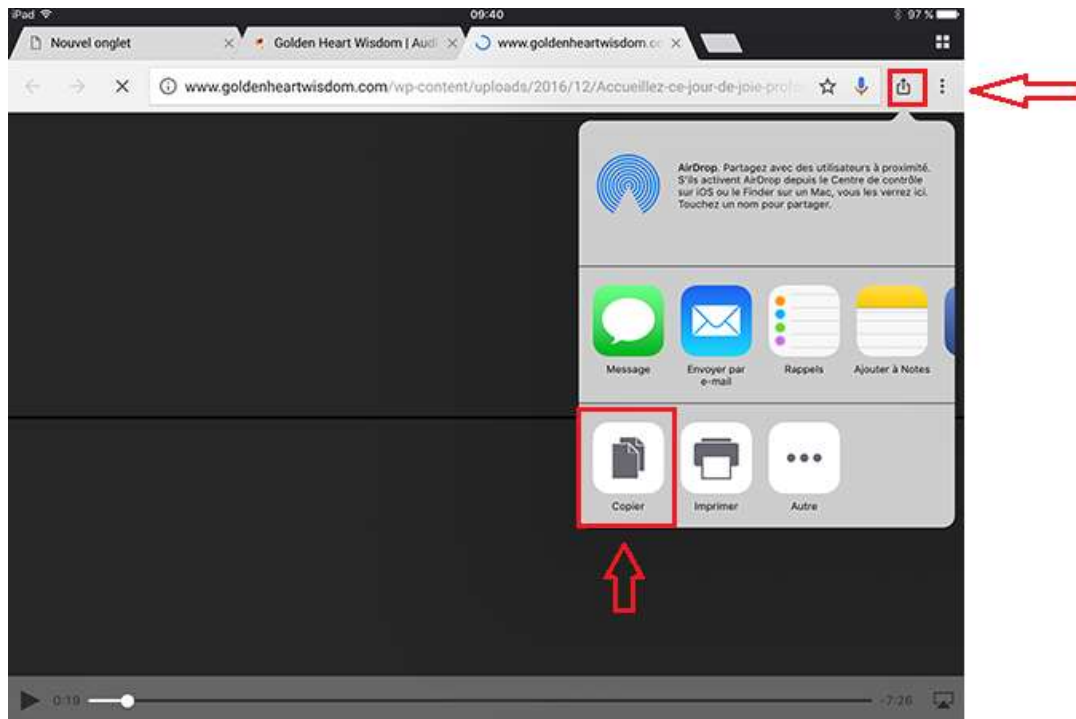

- 1) Install the free application Documents from *Readdle* on your Ipad.

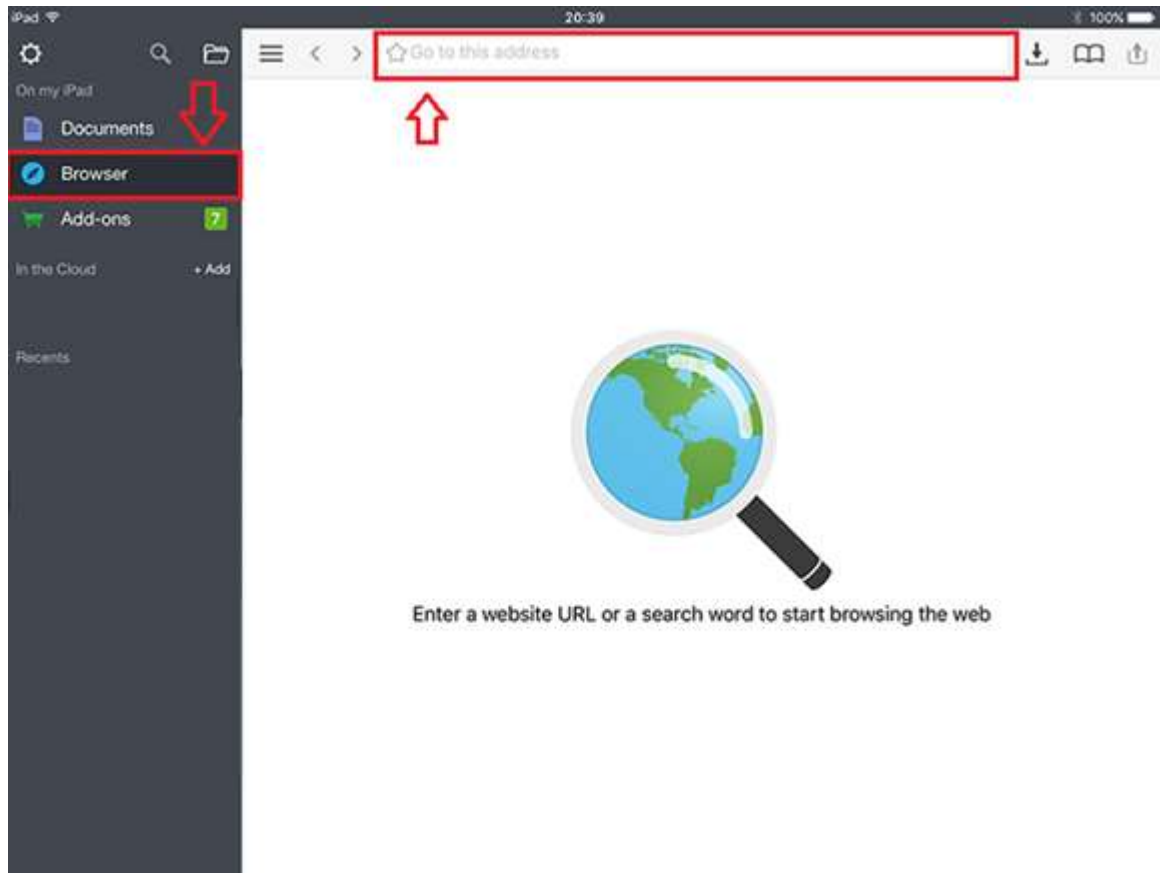

- 2) Go to your audio page and clic on the arrow (↓) at the right end of the title.

- 3) A new page will open. Click on the icon  then a popup will open. Click on Copy.

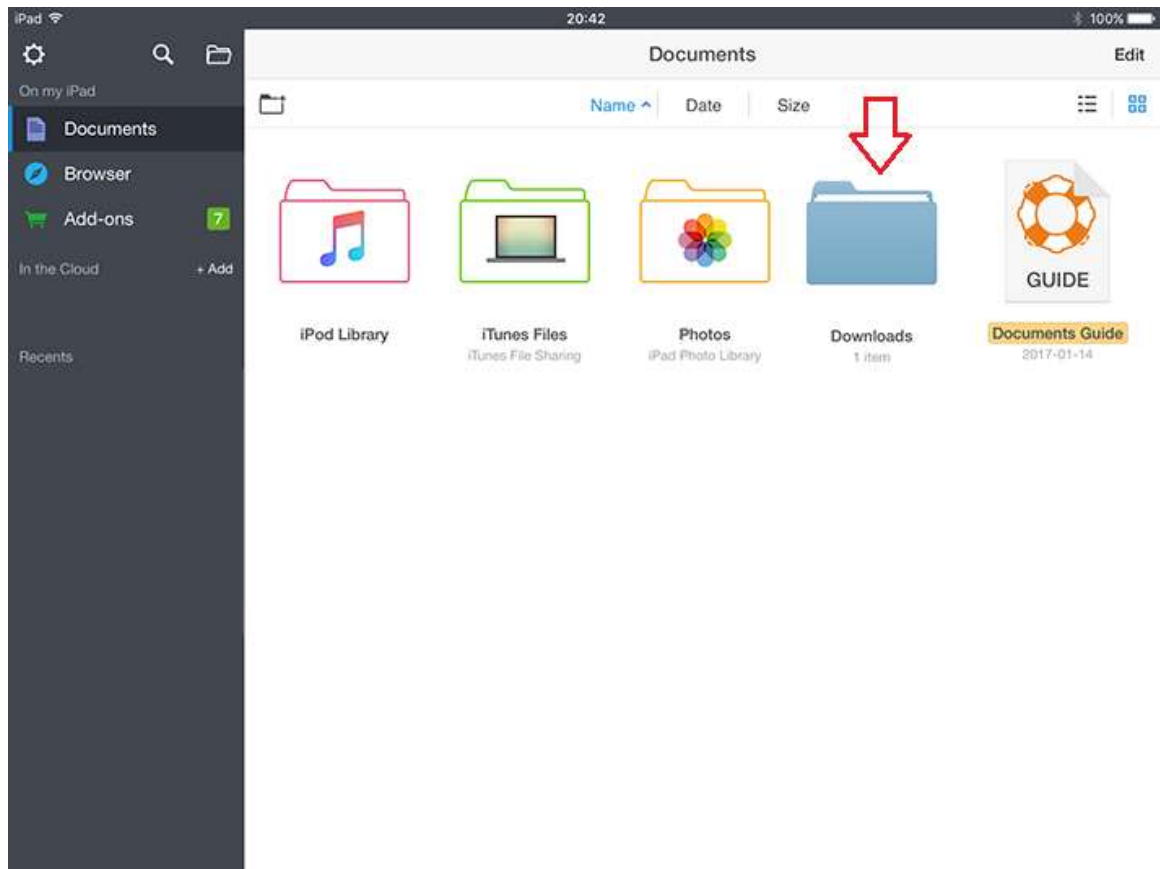

- 4) Open the Documents application. Select *Browser* in then left menu and paste the link in the address bar. Then [Go](#).

- 5) The following popup will appear. Clic on [Done](#).

6) You will find your mp3 file in the Downloads directory.

7) Afterward, you can create new directories to classify your audios. Just drag the audio to the directory of your choice.
